SOLICITORS

COVID 19 UPDATE 24.03.202

We are here to help you

We would like to reassure all our Clients and Associates that our Firm continues to operate to the best of our ability within the current restrictions. We are currently only seeing clients in cases of utmost urgency.

Many phone lines have been diverted to mobiles while our staff work from home and we would ask all our clients for their understanding if there are experiencing any connection delays.

We continue to monitor UK Government recommendations for businesses in relation to COVID 19.

We have a Business Continuity Plan in place that helps us deal with eventualities such as these using remote working and video and teleconferencing tools to stay in contact.

Our solicitors are able to work from home and our Firm as a whole is able to keep functioning despite the current restrictions.

We aim to ensure that our services are kept available to all our clients, existing and new.
